## We are where we are - in The City of Mystery

*Lovely delegate, do not be afraid of the title, let's discover just Zugdidi (Georgian ზუგდიდი) is a city in the Western Georgian historical province of Mingrelia (Samegrelo). It is 318 kms from Tbilisi and is 110 ms from the level of the sea. Mainly here is warm winter and hot windy summer. The city has wide streets and a lot of Greenery. It is supposed that the title 'Zugdidi' originated from the words Zurg-didi, that means high hill in Georgian.*

### Mysterious Lake

Papantsyvili lake is located not far away from Zugdidi. It takes around 15 minutes to get to Zugdidi from here. Papantsyvili in Mengrelian means drowned priest. According to the legend, once upon a time there lived a monk. He followed ascetic way of live. Once some strangers asked him to shelter them over-night. The monk hosted the guests with pork meat during the lent. The Lord became angry on him and on the very next day the monk drowned in the lake.

### Zugdidi Treasures

The treasury of west Georgia is located in the centre of Zugdidi. Nowadays the Dadiani palace (Dadiani was Georgian family of nobles, ruling dynasty of the western Georgian province) became the state historical and ethnographical museum. Once it used to be the residence of Dadianis' Dynasty but in 1849 it became a museum. The owners of the palace were well educated people with interests in different fields. Museum presents to its visitors 41 000 objects. Most of them are unique and invaluable examples of Georgian and foreign art, historic documents and golden and silver treasure. Along with examples of the medieval period here you will find exhibits from ancient times (Stone, Palaeolithic and Neolithic ages). We should underline **the Golden and Silver treasure from I and II centuries**. A wonderful collection of Byzantian, Kolkhidian, Romanian, Russian, Polish and Hungarian coins makes visitors admire the people and their interests who used to live here. Exclusive examples of the embossing made on the golden plates from 11<sup>th</sup> up to 19<sup>th</sup> centuries request special attention. **Napoleon Bonaparte's death mask** made by his personal doctor Franchesko Antomark in 1833 is also kept in the museum..Dadianis' garden covers 26 hectare. The garden has extraordinary collection of trees and plants brought from France, Italy, America and Asian countries. It is also famous for its lake and water supply system. *Alleys of the park are mainly made from willows. The ruins are drowning in greenery. It is believed that if you make a wish in the alley located from the front (right) side of the Dadianis' Palace it will come true-As the nature is favourable for us, we-all EYP-ers should stand on the right side of the palace and wish to create the session truly unforgettable for each of us. Don't we?*

### Here in Better world

Hallo to the first Regional Session in Zugdidi! Yes, you are right - this is the session which has brought together you - young people from the region and from different parts of Europe indeed.

Our sweet officials will support you to be in a good terms with each other, challenging committee works will encourage you to unite for peace. Here is no place for conflicts, but here is the place where everyone loves and respects each other. Hence even politics will never have the influence on our relations with each other, why? – Because you are making the world better.

The EYP (European Youth Parliament) has been one of the prominent contributors to the world peace collecting the youth from around the Europe since 1987. Zugdidi Regional session is the clear expression of this principle definitely.

Historically, the youth have played an important indirect role in politics; they have inspired demonstrations, revolutions that have caused the change of undesirable system and the creation of a peaceful environment. Contemporary revolutions are the clear examples of it: rose revolution in Georgia (2003), orange revolution in Ukraine (2004) where the students and pupils were the main participants, and you-delegates of the session, unified for peace and motivated to work out effective resolutions.

It is clear, the modern world is getting more and more complex, bringing new unsettled conflicts, bloody wars, but we-young people-do not think that this will last for ever, as we are ready to make our commitment starting with the precious relations with our peers from around the world.

The EYP gives us the best opportunity to act and achieve the goal! Let me see your fun, new friends and new resolutions. Yes, with this unanimity you are unbeaten..
