BAKURIANI

Nestled in the shadows of the breathtaking Caucasus Mountains – and only a two-hour drive from Tbilisi, Bakuriani is the place for year-round fun and adventure. It is a paradise for ski-lovers and popular among the snowboard generation. Bakuriani boasts a unique climate, due to the fact that the resort lies in a subtropical zone but at a high altitude. So, we strongly encourage not to miss the opportunity to have a great time in one of Georgia's most popular ski resorts.

Aiming to maintain a high quality of sessions throughout the EYP network, the training will be a great opportunity to exchange different approaches and useful experiences and will supply EYP with skilled organizers, head-organizers or future trainers. Organizing methodology and Session Management guidelines are also expected to be published as a result of the training.
